### Overview

The Polaris FREEDOM Plus Robotic Pool Cleaner is cable-free and ready to clean with premium features for advanced debris collection, with a hand-held remote control and transport charging caddy.

- Quick to Charge. Quick to Clean. - Cleans for up to 2.5 hours. Recharges in 4 hours.
- Unmatched Maneuverability - Dual traction motor enables brushes to rotate independently for enhanced maneuverability and wall climbing.
- Cyclonic Vacuum Technology - Powerful cyclonic cleaning action collects dirt and debris without losing suction.
- Double Helix Brush - Proprietary blade design helps channel dirt and debris to the inlet.
- Track Wheel Design - Continuous treaded wheelbase provides increased surface area for better traction while creating stronger suction beneath the cleaner.
- SMART Cycle Cleaning Mode - Learns your pool to calculate the optimal cleaning time.

### Details

With the Polaris FREEDOM Plus cordless robotic cleaner you can communicate with your cleaner while it's under water using the convenient remote control to direct its movements and call it up to you for lightweight waterline retrieval.

The FREEDOM Plus comes with a hand-held remote that uses cutting-edge LiFi technology to communicate with the cleaner underwater -- giving you the power to start/stop, direct movement and easily remove the cleaner by deploying the Easy Lift System with just one press of a button. Using the hand-held remote, you can call your cleaner up to the waterline where it can be easily retrieved. Water quickly evacuates as you pull it out so there's no heavy-lifting and no hooks necessary!

The Polaris FREEDOM Plus cordless robotic cleaner provides premium cleaning capabilities with four different cleaning modes to clean everything from the floor to the waterline in 2.5 hours or less.

FREEDOM Plus connects with the iAquaLink app to provide specialized cleaning cycles and end of cycle notifications that let you know when cleaning is done so you can conveniently grab it at the waterline as water quickly evacuates -- eliminating any heavy lifting.

Powered by a long-lasting lithium-ion battery, FREEDOM Plus comes with an Easy-Charge Station for direct contact charging in just 4 hours and you can check the status of the battery in the app so you know when it's ready to clean.

To ensure thorough cleaning, FREEDOM Plus is equipped with a one-of-a-kind Double Helix brush design that enhances debris collection by channeling dirt towards the vacuum inlet as it scrubs the surface of your pool, and a large, transparent filter canister to collect debris that's easy to empty without getting your hands dirty -- you simply remove, shake, and spray the debris away.

#### A real game changer

We switched from a corded Dolphin that broke down to this model. I was a little worried about having to charge it all the time but this machine is fantastic. Not having to see the cord in the pool all the time is a huge benefit. The robot comes up on a command from the remote control to the edge of water and you can easily pull it out with the pro...[Read More](#)

#### Freedom Plus

I like the portable caddy that came with this unit, and the remote control. This is an expensive unit, but does the job well, and cleans the pool very well right before guests come. It gets out the other items that my Polaris 360 will not get, so a good addition. It also goes up on my large step and cleans that, which my Polaris 360 will not do...[Read More](#)

**Works great!**

My pool is enclosed, but I was still getting small stuff on the floor of my pool. I set this in the pool once a week and it cleans it perfectly. I've not noticed it missing any areas and it manages to clean my steps too. I considered the cheaper option without the remote, but I like that I can use it to retrieve the cleaner when it finishes an...[Read More](#)

**So far, it's great!**

Never had a cordless unit before, but this one seemed like what I wanted.  
 Pros: Charger caddy only took about 10 minutes to put together.  
 Used it twice, and has done a GREAT job of cleaning.  
 When they say the thing will climb a wall, they mean it. This thing climbs pool walls like it wants to escape!  
 Fits snug on the charger, and ...[Read More](#)
